

Imaging Services

CR, DR, X-Ray Equipment, Service and Supplies

WE HAVE IT ALL!

WE ARE AN AMPED POWER PARTNER

20/20 IMAGING DIGITAL

Chiropractic digital x-ray equipment is now very affordable. Your Chiropractic office can now be converted to utilize computed radiography (CR) with a Picture Archive and Communication System (PACS), or even go fully digital with a Digital Radiography (DR) system.

Save space by not having a darkroom, films, chemistry, and other supplies that go along with conventional film processing. Your practice becomes environmentally friendly by only printing hardcopy images when needed.

SUMMIT AC1se CHIROPRACTIC

AC1se Chiropractic System

The simple, low cost X-Ray system designed specifically for Chiropractors.
